Custom Built to
Your Design

▲ Custom built car trailer with stacker lift system installed, shown in the down position.

The stacker lift system in the up position. This lift is capable of lifting 4,000 lbs., thereby enabling a second car to be stowed in the lower position.

► The stacker lift system is shown with two custom race cars loaded in the travel position.

Race & Car

Equipment Trailers

by Cargo Mate

Cargo Mate builds race car trailers to fit your needs. Whatever your requirements, we can custom design a trailer with the dimensions and features you desire. Cargo Mate offers numerous cabinet and workbench styles and configurations along with a variety of accessories, flooring materials, and color schemes to satisfy the most demanding car owner.

▲ QFF8532TTA4 Qualifier 5th wheel race car trailer shown in pewter.

▲ ELG8536TA4 Eliminator gooseneck race car trailer with walk on roof shown in white.

Interior of gooseneck trailer featuring ATP aluminum tread plate and upper bunk area.

Cast corners are standard on all Eliminator models.

WEVG8540TTA4 featuring rear load area with ATP aluminum tread plate and custom cabinetry. Side opening double doors with fold-up steps show door storage area and interior mounted accessories.

- ▲ Features large vertical cabinet for clothes and oversized tools. Also contains an optional battery box with outside vent.
- ◀ Optional color inserts on functional cabinetry both overhead and standard floor mounted with workbench on top.

Overall view of custom cabinetry with optional color insert panels, tire rack, depressed stepwell to exterior door and ATP aluminum tread plate.
